

Experience the Coolest Camps Beginner & Advanced Camps Available

Zaniac Summer Camps are ideal for your curious child. Go on a Science, Technology, Engineering, Art & Math Adventure with us! Each camp is tailored to your child's needs. Small camp sizes ensure an exceptional experience. Our role model instructors are fully-trained and vetted high school and college honor students who love to work with kids. Camps are grouped and focused for your child's age and grade.

Grades K-2

Popular camps include STEAM Quest, Robotics, Engineering, Coding, Minecraft™ and Math.

Grades 3-5

Popular camps include STEAM Quest, Drones, Minecraft Galaxy, Kerbal Space, Advanced Robotics, Music Lab, Minecraft Mods, Coding, 3D Printing and Math.

Grades 6-8

Popular camps include STEAM Quest, Fashion Design, Python and Java Coding, Minecraft Redstone and Design Lab, Advanced Robotics, Math and Drones!

*Grade ranges include Rising Grades K-9.

Full-Day Weekly Camps

Hours 8 a.m. - 5 p.m. (\$399)
Indoor Tech / Outdoor STEAM Camps
(Memorial & July 4th week - \$319)

A Subway lunch will be provided
Morning & Afternoon snack provided

Half-Day Weekly Tech Camps

8 a.m. - Noon or 1 p.m. - 5 p.m. (\$249)
(Memorial & July 4th week - \$199)

Please bring a sack lunch
Snack provided

Open Saturday & Sunday for
Birthday Parties.

**FREE
Zaniac T-shirt or
Water Bottle with
each camp!**

Looking for multiple summer camps?

Join Edison Club & Save

Summer Camps

**Coders. Explorers.
Engineers. Designers.**

Enter the Technology Zone

**Louisville, KY
May 29 - August 10**

Who will your child be this summer?

Be a Coder

It's never too early to learn to code, an essential 21st century technology skill for every child. Go from true beginner using Scratch or Blockly to writing custom code in Python and Java! Use your new coding skills to program robots, design a game or create your own website.

Be an Explorer

Discover and investigate! Explore biology, math, physics & the galaxy with a game your kids already love—Minecraft! Go on a themed STEAM Quest exploring as a wizard, superhero, astronaut, scientist and more!

Be an Engineer

Think, build and create! Explore mechanical and electrical engineering through hands-on exploration and innovation! Technology is a powerful way to teach kids engineering skills with littleBits circuits, LEGO EV3 robots, drones and more!

Be a Designer

Students are immersed in the engineering and design process while creating 3D prints, architectural design, musical compositions, and even their own fashion designs. Campers create their own projects using our cutting-edge tech tools such as TinkerCad, PrintStudio, Inkscape, Minecraft and GarageBand.
