

# Engineering Takes Flight – Drones

## Watch your STEAM skills take off!

Engineering and computer science take flight! Discover the hardware and software components that make Drone technology possible.

For grades 3-8 • Tuition: \$428

- Use creativity & engineering skills to learn how Drones work
- Understand nature's influence on Drone Technology while building & flying Drones
- Explore physics and geometry to understand the anatomy of Drones & flight paths
- Program Drones with block-programming & use critical-thinking skills to solve hands-on challenges
- Enjoy learning with friends in a high-tech & fun environment
- Classes meet 90 minutes once a week for six consecutive weeks
- Enjoy low student to instructor ratio of 5:1
- Receive personal progress emails from your Zaniac instructor after every class
